

Allsteel®

Nimble®

the classic stackable chair.

From conference rooms to cafés, auditoriums, classrooms, and beyond, Nimble's classic design and contemporary color palette complement any environment. This high-density stacker features a contoured seat and flexible back to reduce fatigue and allow natural shifts in seating posture. Nimble's unique frame design allows legs and feet to fit easily under the chair.

Nimble is lightweight (14 pounds), yet offers a durable stackable frame. Its clean design and comfortable shape provide support in all the right places.

Easy to stack and store.

Nimble stacks up to 12 chairs high on the floor. Or, up to 36 chairs high on the optional cart.

Truly versatile.

With its space-efficient profile, Nimble can stand alone or be paired with a variety of Allsteel tables. It moves, stacks, gangs, and stores with the greatest of ease.

Hidden support.

Nimble's unique frame design positions this stacker's structural bar for optimal support and allows for more legroom.

Variety of finishes.

Chrome, black, and silver frame finishes work well in any setting.

Smart design.

Nimble's 100% recyclable polypropylene shell is contoured for comfort. All color choices resist fading with a UV inhibitor.
