Persona™
Collection

Meet the family.

Workstyles come in different varieties. That's why each member of the Persona family is good at something different. From personal towers to overhead cabinets to pedestals, they work great individually and even better as a team.

Find your match.

Make storage a matter of personal choice as well as necessity. Choose from features like multiple pull styles, custom drawer sizes, paint finishes, and more. It's your workspace. Shouldn't it look like it?

1. Lateral file.

The storage workhorse, in multiple heights and widths. Works with systems furniture or by itself.

2. Personal tower.

Versatile storage with a small footprint. It's storage that goes up, not out. Combine drawers, personal storage, and wardrobe options for the right solution.

3. Pedestal.

Freestanding, mobile, or suspended, with two drawer sizes.

4. Combination file.

The perfect combination of file storage and shelf storage, with concealed or open shelves.

5. Custom lateral file.

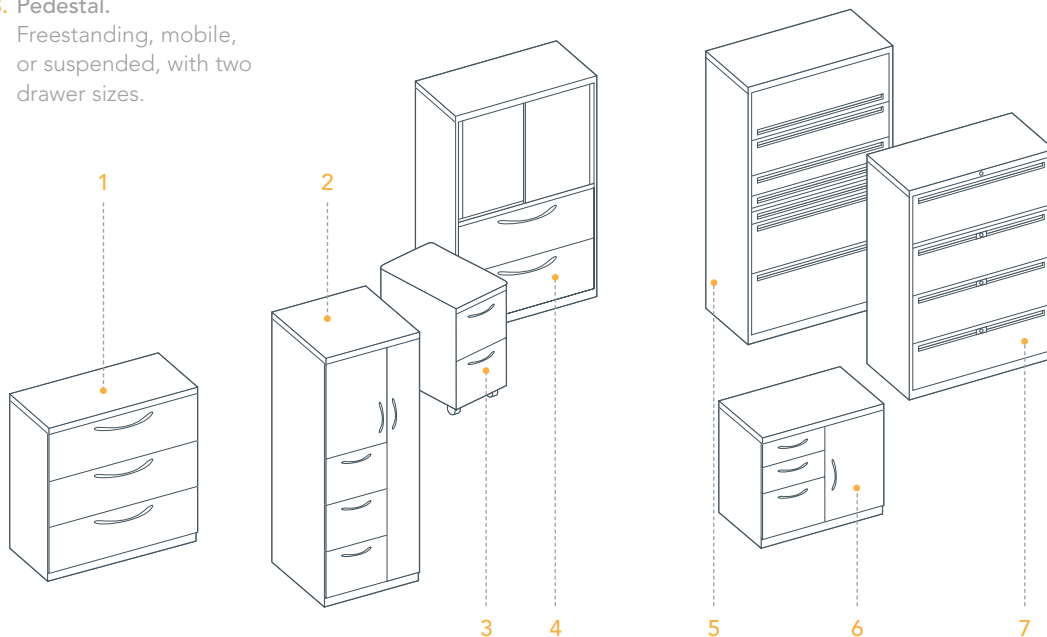

Turn storage into a personal solution. Select 3", 6", 9", 12", or 15" opening sizes.

6. Personal file.

A variety of drawer and shelf options let you create a personal file that meets your preferences.

7. Hoteling lateral file.

Perfect when several workers need to share storage. Each drawer has individual locking for maximum security.

Stand by me.

Storage is more than just a container. It's a solution that integrates with the workspace and supports your workstyle.

When you're busy, you need a place for safekeeping so you can pick up right where you left off. That's the concept behind Persona: personal storage for every need.

In your court.

Define your corner of the world with storage that works the way you do. A personal tower can give you the vertical clearance you need for storing high and low priorities. A mobile pedestal sticks by your side for quick access no matter where you are. Overhead storage stays front and center for keeping frequently used items handy. Finishes and pulls can be specified so storage options are complementary and suit your taste.

1. Looking up.

Overhead cabinets feature a radius front, radius mesh front, or receding door. Specify with or without arch pull and easy-assist door (radius and radius mesh only).

2. Vertical clearance.

Define your workstation with a personal tower. Available in two heights, with two or three drawers, and wardrobe on the left or right.

3. Your little helper.

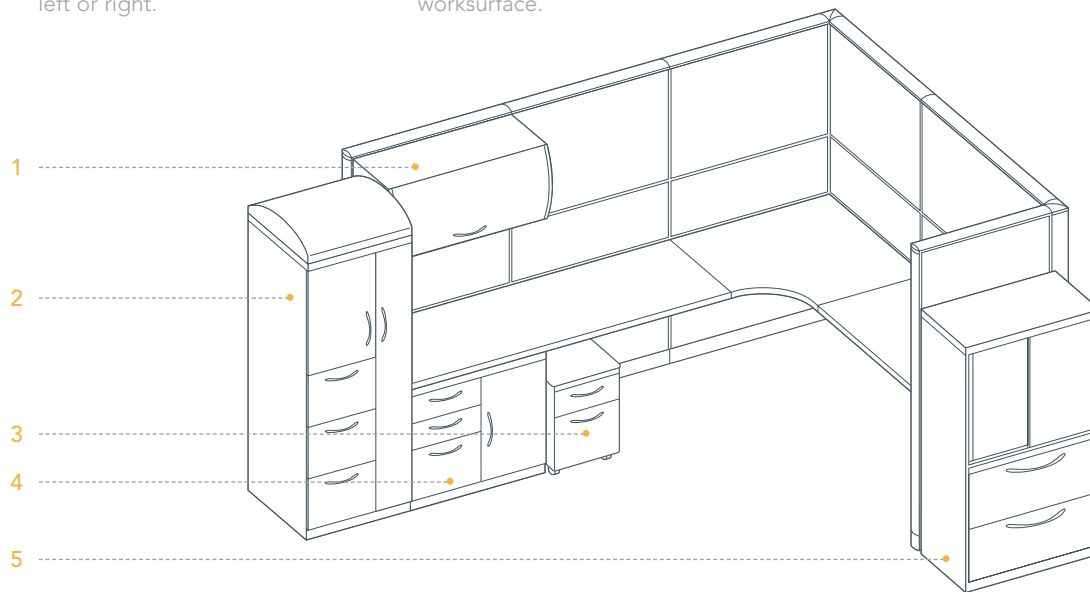

Mobile storage travels with you. A seat cushion top turns your pedestal into a guest seat. Additional pedestal tops can be specified.

4. Interior designed.

Personal files come in two heights, with numerous combinations of file, personal, and shelf storage. In the systems setup, use it to support the worksurface.

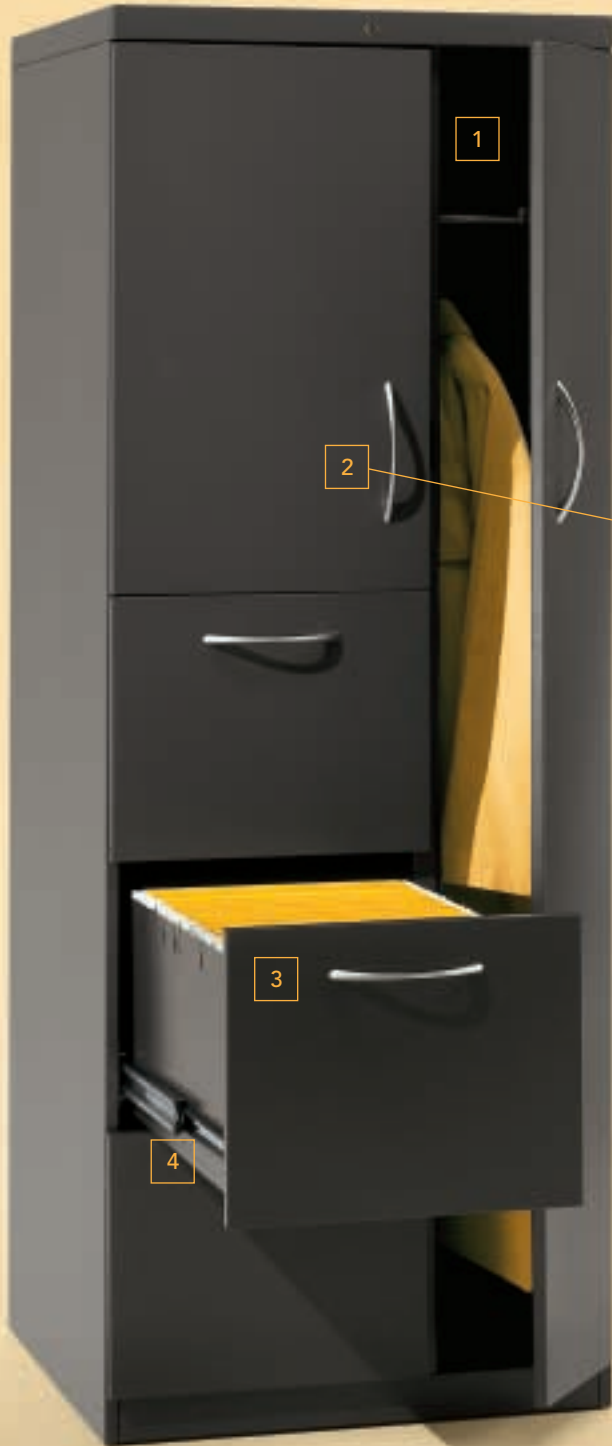

5. Share the space.

Effective for use outside the workstation as shared storage, combination files are available in two heights. Shelves can be open or concealed behind doors.

Storage in the midst.

Storage is an essential part of the productive workplace. That's why Persona integrates perfectly with Allsteel systems furniture. It gives you the freedom to express your personal taste without sacrificing utility. And it's designed to be the backbone of the productive office.

Maximum potential.

There's a lot going on inside a Persona personal tower. It's a giant among storage solutions, stacking ample capacity over a small footprint. Available in two heights and multiple configurations, it can be specified to coordinate with your existing Allsteel systems and storage products.

The personal tower's features make it a valuable companion inside or outside the workspace. Placed inside, it can do the work of lateral and overhead storage; placed outside, it's perfect for defining work areas. A single lock conveniently secures all drawers and doors at the same time.

1. Wardrobe storage.

The wardrobe is fitted with an adjustable shelf above the hanging rail, providing room for personal belongings.

2. Personal storage.

An adjustable shelf can be positioned to make the space fit the need. Additional shelves available for even more storage versatility.

3. Filing storage.

Filing storage is available with two or three drawers, with side-to-side or front-to-back filing options. Box drawers can also be specified.

4. Extra heavy-duty suspension.

Accuride® suspension means drawers move smoothly and quietly, regardless of the weight of the contents. Partially open drawers retract when other drawers are opened.

Pull: Arch, Integral

Drawers that fit.

Not everything fits in a standard file folder. Persona knows this. That's why custom lateral files come in three widths and five heights, with interior openings from 3" to 15" high. You can also specify posting shelves for additional pull-out worksurfaces.

If security is a consideration, core removable locks give you the ability to make everything operate with a single key. Or specify your storage without lock cores, then add them after installation.

Uniting performance with personal preference—that's the essence of Persona. It adds custom options to the capacity and durability of the lateral file. Make it look the way you want and work the way your workspace demands.

Small drawer, big concept. The beauty of a 3" high drawer is its ability to stow small items that normally get swallowed up by a standard-sized drawer.

A place for everything, and everything in its place. A 6" high drawer neatly houses CDs and other small accessories with room to spare.

Extra heavy-duty Accuride ball-bearing suspension ensures drawer smoothness and strength, as well as 7% more load capacity per drawer than comparable products.

Face front.

The many faces of Persona allow it to integrate with any system or workspace. Pull styles, finishes, and storage configurations can be selected to match purpose and taste.

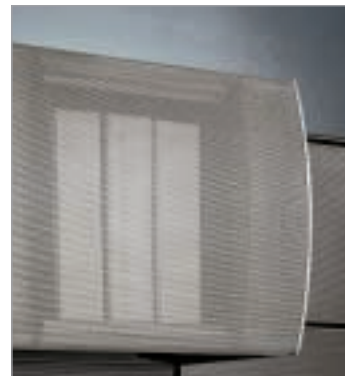

The hoteling option allows lateral file drawers to lock independently for security and privacy.

A personal file's interior is a testament to versatility. It can be configured to hold items of almost any size.

Custom lateral interior component heights give new meaning to vertical clearance. Clockwise from right: 9" drawer, 12" shelf, and 15" drawer. 3" and 6" sizes can also be specified.

Overheads put personal storage on a higher plane. From top to bottom: receding door, radius, and radius mesh. Radius and radius mesh available with arch pull and easy-assist door.

Pedestal tops know how to use their heads. From top to bottom: seat cushion, laminate, and transport. Veneer and steel also available.

Pull styles: arch, beveled, ellipse, full, integral, and recessed.
