

NOW, THAT'S A DURABLE SYSTEM!

California Office Furniture Dealership Employees Escape Injury After Wayward Vehicle Stopped by Allsteel Terrace System

Orange, CA – *September, 2005* – Talk about your ‘life’ time warranties! At the local Allsteel dealership in Orange County, CA, apparently an Accord sedan accidentally ‘drove’ right through the front of the showroom – and several lives were saved when Terrace 3.4 workstations stopped the vehicle.

According to Interservice Office Furniture dealership owner Tony Jabs, “I guess you could say this incident is a testament to the strength of Allsteel’s 3.4 product – it was so strong it was able to stop a 4,000-pound car from literally killing four of my employees.”

Fortunately, no one was injured, and Jabs was even able to reflect on the whole episode by saying, “To say we like 3.4 is an understatement. We now like it more than ever.” And of the entire incident he concluded, “I definitely do not recommend remodeling your showroom in this manner.”

ADD ONE**

Allsteel Terrace 3.4 is a durable segmented system, a stacking system and a freestanding desking solution all in one. It provides consistent aesthetics throughout the work environment, simpler reconfigurations and easier inventory management. It has an open frame construction which provides unprecedented room for distributing and accessing power, voice and data wiring.

Both its 3.4 and 2.6 panels are constructed of heavy gauge steel components, welded together into a one-piece frame making it one of the strongest systems available...as evidenced recently in Orange County.

For more information about Terrace 3.4 or other Allsteel Systems, visit Allsteel's web site at www.allsteeloffice.com or contact Allsteel at 1-563-262-4800.
