

Get Set®

## Get ready for Get Set.

This is one nesting, stacking and storing chair that provides comfort, style and versatility to any workplace.

### Get Set adapts to your demands.

Get Set has it all. The padded seat and unique reclining motion of the back make it comfortable for hours of interactive work. A simple folding mechanism along with durable casters let it come and go as needed. It's sized to fit a wide range of body types and work situations. A perforated back enhances airflow, or you can choose a padded back for extra cushioning. It comes with arms or without to pull up to a keyboard or cluster around a conference table.

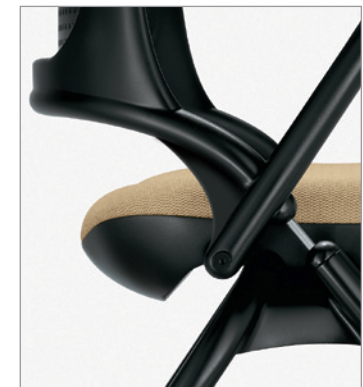

For training rooms, cafeterias, team rooms, and touch down areas, Get Set leads the way.

**Go vertical.**  
Get Set chairs stack up to four high for space-efficient storage. Durable casters let you roll them out as needed over any floor surface.

Polymer back and arms are enhanced with a UV stabilizer that improves color density and material longevity. A handy cutout in the back makes it easy to maneuver Get Set wherever you want it to go.

An innovative mechanism allows Get Set to provide support as you recline, ensuring comfort throughout the workday.

**Customer's Own Material (COM).** Get Set accepts COM to coordinate with interiors and corporate standards programs. For information on our easy-to-use COM process, visit [allsteeloffice.com](http://allsteeloffice.com) or contact your Allsteel Dealer or Allsteel Customer Support.

## A word about our design team.

Get Set is the result of Allsteel product designers working in collaboration with the award-winning staff at Cesaroni Design. By exploring real-world learning environments, this interdisciplinary team was able to meet a wide variety of challenges and create a system of furniture that offers flexibility, intuitive functionality, and the versatility to operate easily in any training or other corporate environment.
