

Allsteel®

Designed to work. Built to last.

Extensions™

Organization tools take a firm grasp on the tool rail or tool tile, freeing valuable real estate on the work surface below.

Optimal organization.

Extensions organization tools keep everything in place and within arm's reach. Each all-metal piece comes in a range of colors and attaches easily to the sturdy tool rail or tool tile. These handy tools allow workspace personalization and customization while organizing your daily workflow.

Effective ergonomics.

Ergonomic accessories—like intuitive keyboard and mouse platforms—keep you positioned for success. They're designed to support a wide range of individual workstyles and ergonomic requirements.

Inviting illumination.

Adjustable task lighting options provide illumination just where it's needed. Up and down lights shed a luminous glow within the workspace.

Compatible parts.

Extensions work tools are right at home with Marbles® mobile furniture and Allsteel systems. They're the perfect finishing touches to the functionality of Terrace®, Concensys®, and 8000 System.

Binders fit compactly into the binder bin. Frequently used items find a home on shelves just their size.

Know what's next on your plate. Our organization tools keep things prioritized and even let you know who's coming.

Cover:
Paint: Gunmetal Mica, Marigold

Your hard drive lifts up and out of harm's way with the CPU Hammock.

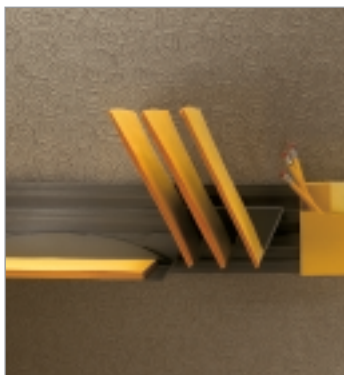

Task lighting—including spot light and down light—selectively illuminates the worksurface and focuses attention. An up light gives a welcome glow to even the most businesslike work area. Both up and down lights attach off-module to panels the same width or smaller.

Our Samba K2 STS keyboard platform is fully adjustable and intuitive, and articulates to fit each user. Use it seated or standing. Ergonomically, it's a pro.

The lift-to-adjust keyboard platform allows height adjustment without the use of knobs or levers.

Get organized and liberate the desktop. Handy Extensions clip easily to both tool rail and tool tile to maximize your worksurface below.

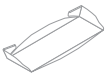

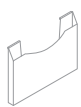

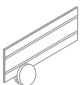

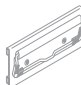

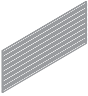

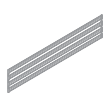

Little giants.

When you're hard at work, the smallest tools make the biggest difference. Allsteel's family of Extensions work tools is like having a team of assistants on hand to keep you focused and productive. And they fit every Allsteel system so compatibility is never an issue.
