

**ALLSTEEL'S MERGE™ TABLE COLLECTION WINS GOLD AT NEOCON®  
WORLD'S TRADE FAIR**

*New Family of Tables Offers Inspired Solutions for Everywhere  
Work Happens*

Muscatine, Iowa – *June, 2006* – Allsteel, a leading contract furniture designer and manufacturer, announced that its Merge™ tables were honored with the *Best of NeoCon Gold* award in the Conference Tables category.

Merge is a complete collection of tables that makes more efficient use of time and space in informal conference rooms, private offices and even workstations, by offering better work and collaboration solutions for shrinking workspaces and technology management.

Introduced at NeoCon, Merge's extensive selection of versatile tables includes three innovative models, including: Power Bay, Adaptive and Height-adjustable.

- *Power Bay.* Merge conference tables have hidden power bay and tops that easily slide open and closed – storing and providing immediate access to the most common collaboration technology tools. The tables also provide wire and cord management eliminating the 'snakes nest' of wires commonly found.
- *Adaptive.* Merge mobile tables convert any space (private office, workstation, etc.) into a meeting space by quickly and easily changing from stowed to docked to free-standing. A 36" round or square can drop a leaf, effortlessly rise, and literally 'dock' level with most other tables or desks, making any area ready for an impromptu meeting or additional workspace.
- *Height-adjustable.* Merge tables are a fast, easy and cost-effective way to support requirements for user-controlled height adjustability from sit to stand thanks to a simple trigger latch. This gravity-driven 'lift and release' mechanism adjusts individual legs instantly and easily from a standing position.

The Best of NeoCon awards drew 370 entries in 30 categories and were judged by 60 interior designers and facilities management professionals. The awards are sponsored by *Contract* magazine, the International Interior Design Association (IIDA), Merchandise Mart Properties, Inc. (MMPI) and the *McMorrow Report*.
