

### Laterals, Pedestals and Storage, Painted Wood Storage

#### Standard Options

- Random Keying — The factory will assign key(s) arbitrarily using key numbers from chart below.
- Omit Lock Core — The factory will omit lock cores. Removable lock core kits with specific key number must be ordered to facilitate keying alike in the field.

#### Vertical Files

#### Standard Options

- Random Keying — The factory will assign key(s) arbitrarily (see below chart for key numbers).

#### Key Alike Process

- Order standard product which will be shipped with factory installed locks and random numbered cores.
- Order the appropriate quantity of like numbered cores required for each workstation or keyed area.
- Simply replace the factory installed core with the replacement cores after product has been installed.

#### Replacing Lock Cores

- Lock must be in the unlocked position.
- Insert core removal key and pull core straight out. (Reach units require rotating key 90° clockwise past unlocked position.)
- Insert new core with core removable key, hold core into lock and withdraw core removal key.
- Retain original core for future use.
- On Persona Pedestals, open top drawer and hold lock bars in unlocked position before removal of core.

### EASY LOCK PROGRAM

The Allsteel Easy Lock Program simplifies the lock-core ordering process when multiple cores are being specified. The Easy Lock cores can be used with Allsteel storage that currently uses the **LKF23C** cores (all storage except Receding Door Overheads).

To ensure ease of ordering in different situations the Easy Lock cores can be specified in three different ways — Random, Specified or Sequential.

#### Random Keying

The Random Keying option is provided for instances where there are multiple orders or phases to a project and the offices need to be keyed alike but the key numbering is not required. With the random keying option key numbers are not specified, however, the core kits will be in sequential order from a random starting point.

*Example: There are 15 offices which each have 5 black locks that need to be keyed alike, but the actual key numbers are not important.*

This order would look like: **15 LKFE5BLK.X**

This specifies that 15 5-core kits are needed in black with random key numbers.

#### Specified Keying

The Specified Keying option is provided for the instances where there is a specific key number desired for all of the cores ordered.

*Example: There are 10 offices which each have 2 silver locks that need to be keyed-alike with key number 202.*

This order would look like: **10 LKFE2SLV.X202**

This specifies that 10 2-core kits are needed in silver with key number 202.

#### Sequential Keying

Allsteel Sequential Keying option is provided for the instances when there are multiple orders or phases to a project and it is imperative that key numbers are not duplicated.

*Example: A multiple phase project has 60 total offices — 40 offices in Phase I, and 20 offices in Phase II. The project manager has expressed a need to have keyed-alike offices but doesn't want any of the offices to use the same key numbers.*

*The first 40 offices have 4 silver locks each that need to be keyed-alike.*

This order would look like: **40 LKFE4SLV.SEQ/101**

This specifies that 40 4-core kits are needed in silver and the starting number is 101.

*The second set of 20 offices only have 3 silver locks each that need to be keyed-alike; and it is important which key number starts off the sequence to ensure that no key number is duplicated. It is known that the first key range was key numbers 101-140.*

The second order would look like: **20 LKFE3SLV.SEQ/141**

This specifies that 20 3-core kits are needed in silver and key sequence has to start at key number 141.

#### HOW TO ORDER:

**NOTE:** Numbers 101-225 are available. Orders without key numbers specified will be keyed at random.

SAMPLE ORDER FOR EXAMPLES GIVEN:

Quantity	Model	Key Type
15	LKFE5BLK.	X
10	LKFE2SLV.	X202
40	LKFE4SLV.	SEQ/101
20	LKFE3SLV.	SEQ/141

Description	Model	List Price
<b>Easy Lock Lock-Core</b>		
Lock Core Kit Silver — 1 core, 2 keys	LKFE1SLV	\$ 17
Lock Core Kit Black — 1 core, 2 keys	LKFE1BLK	\$ 17
Lock Core Kit Silver — 2 cores, 2 keys	LKFE2SLV	\$ 34
Lock Core Kit Black — 2 cores, 2 keys	LKFE2BLK	\$ 34
Lock Core Kit Silver — 3 cores, 2 keys	LKFE3SLV	\$ 51

Lock Core Kit Black — 7 cores, 2 keys	LKFE7BLK	\$119
Lock Core Kit Silver — 8 cores, 2 keys	LKFE8SLV	\$136
Lock Core Kit Black — 8 cores, 2 keys	LKFE8BLK	\$136

#### Master Key

(One key) Available to authorized dealers only on faxed orders.

**MKF22 \$ 11**

**NOTE:** One core removal key minimum per order. One additional core removal key per 25 lock-cores will be shipped.

#### How to Specify:

**Step 1** — Count the number of lock cores and color required in each workstation that need to be keyed alike.

2 overheads with 1 lock-core each = 2  
2 pedestals with 1 lock-core each = 2  
Total silver lock-cores per station = 4

**Step 2** — Count the total number of workstations needing 4 lock-cores.

4 total workstations

**Step 3** — Specify model number based on total number of lock-cores in a station and quantity of kits based on number of workstations.

**4 LKFE4SLV.X**  
 — Number of workstations  
 — Lock-Cores per station  
 — Color of Core
