A word about our design team.

Get Set was realized by an interdisciplinary design team at Allsteel in collaboration with award-winning Cesaroni Design. This dynamic team explored the challenges of real-world learners and learning environments. They sought to empower learners, create unparalleled flexibility, achieve intuitive functionality, and accommodate a range of setups with every Get Set product.

Respecting the environment.

At Allsteel, we help our business partners achieve a positive environmental impact and understand that environmental consciousness can be gainful. This means ensuring that all materials balance performance and sustainability. Strong, high-quality products guarantee years of use and re-manufacturability.
