

Align™ Lockers

The newest addition to the Allsteel family of metal storage, Align lockers provide a beautiful, comprehensive solution of secure storage outside of the primary workstation. Whether you're minimizing the overall workstation footprint or have mobile workers needing a place for their personal belongings, lockers provide the right amount of storage.

Align lockers include single, double, and quad variations, as well as an additional cubby solution. Designers have the freedom to select from a variety of aesthetic options including plinth- or footed-based, painted and laminate fronts, and a variety of pull options to reflect any company culture.

Lockers

Single
