

Allsteel®

In the fast-paced world of business, connecting is vital to success. People are encouraged to be more collaborative and challenged to be more productive. Now, more than ever, it's important that every space invites interaction. As a result, Allsteel responded with Inspire, a balanced combination of comfort and durability in a contemporary, versatile seating design. Inspire supports today's demand for connection with a new standard of comfort that combines freedom of movement with continuous support.

Inspire™
Business

Well-prepared for any setting.

Inspire offers fresh possibilities for collaboration throughout your workspace. Comfort, performance, and versatility make Inspire ideal for individual or shared offices, breakout spaces, training rooms, cafés, and other multi-purpose spaces. A variety of styles, frames, colors, and finishes blend seamlessly into any work environment.

TriFit™ Technology

Your body needs to move, shift, and breathe. TriFit technology encourages all three – and allows you to do so more naturally, more ergonomically.

- Non-mechanical seat suspension provides weight-activated movement.
- Motion-sensing back recline intuitively adjusts with user movement.
- Material flexure moves with the body to reduce pressure and allow airflow.
