More function in less space.

Seek chairs nest and stack for high-density storage, giving you more floor space than conventional chairs. So you can make the most of any setting, anytime.

Comfort that works.

Lean forward or sit back. Seek's pivoting back and contoured seat conform to your position, evenly distributing weight and reducing pressure points. Innovative comfort moves with you, for as long as you need it.

Flexible, confident performance.

Seek complements the look of your workspace by giving you a variety of design options. Combine a black or silver frame with one of eight contemporary shell colors to enhance your aesthetics. Specify the features that work best for your space. With Seek, it's simple to coordinate style while maximizing function.

Chairs are available with arms or armless to fit your space and style of work. Choose a polymer back or mesh back and a polymer seat or cushioned seat.

Lengthy training sessions shouldn't mean hours of discomfort. Seek is designed to move with the body and minimize pressure points, so no matter how you sit or how long you stay, you remain comfortable.
