

Allsteel®

Open your mind to the unfamiliar.

Say hello to Seek™, a seating solution that is more about creating space than filling it. It's about accommodating movement and adapting to environments on the fly to support impromptu collaboration. And a way of looking at seating as flexible and agile –like your people– to fit wherever need or imagination demands.

And rediscover your space.

Today's workspace is changing. Footprints are shrinking, and the desire for collaboration is in full demand. The key to success is bringing people and space together in a way that fully utilizes them both. Seek's reduced footprint and versatile design support today's agile environment by transforming any area into comfortable, adaptable, collaborative space. With Seek you never have to look far for readily accessible seating.

Nested stacks minimize footprints and free-up valuable real estate. Easy maneuverability aids planning and minimizes the stress of organizing, storing, and allocating seating. Eight contemporary colors pair with black and silver frame finishes to appeal to universal taste and setting.

Seek blends into a variety of environments. Light-weight and mobile make Seek ideal for collaborative settings like guest seating, breakout spaces, and areas that serve multi-functions.
